

PART 4: BUSINESS DIAGNOSTIC QUESTIONS (10 MINS | 20 MARKS)

Interact with your completed dashboard (using filters, slicers, and cross-highlighting) to answer the following questions:

Question 1: Profit Bleed Sub-Categories

- **Task:** Look at Visual 2 across all regions and segments.
- **Question:** Which Sub-Category generates large sales volume but produces a net negative profit (loss)?
- **Your Answer:**
 - Sub-Category Name: **Tables**
 - Total Loss Amount (\$): **17,725.48**

Question 2: Segment Profitability Comparison

- **Task:** Use the Segment slicer to compare 'Consumer' vs. 'Corporate'.
- **Question:** Which customer segment achieves a higher overall Profit Margin %?
- **Your Answer:**
 - Higher Margin Segment: **Corporate**
 - Margin Difference (%): **≈ 1.48 percentage points**

Question 3: Impact of Discounting

- **Task:** Look at Visual 4 (Scatter Chart) for transactions with Discount > 20%.
- **Question:** What happens to profit margins when discounts exceed 20%? What business rule should management implement?
- **Your Answer:** **High discounts → lower/negative profit margins → discount >20% should require approval.**

Question 4: Top Region for Technology

- **Task:** Filter the dashboard to the Technology category using Visual 5 or cross-filtering.
- **Question:** Which geographic Region generates the highest profit for Technology products?
- **Your Answer:**
 - Top Region: **East**
 - Revenue in that Region (\$): **264,973**
